Model	Description
LWSMB	SuperSign CMS is a content management software solution optimized for LG webOS signage. It supports multiple displays and accounts, is able to be linked to external databases, and allows server access from mobile devices. With its simple and intuitive menus and layout options, SuperSign CMS enhances efficiency for content creation and editing, scheduling and distribution. Users can easily configure brightness and volume settings to follow a pre-determined schedule, as well as swap between schedules with the multi-channel content scheduling feature which stores content beforehand.
LWLD	LG SuperSign Control+ is a remote control and monitoring software for operating large-scale signage setups with the LG Signage webOS Box. SuperSign Control+ allows multiple administrators to access the server via the network to monitor the status of connected displays in real-time as well as adjust and control them.
LPBD	LG SuperSign Software Features
